I. CHRONOLOGY of Outstanding Events

(S) In the normal course of events an intelligence production office does not usually experience significant events which permit identification for purposes of establishing a chronology of highlights. Day-to-day operations include production of scheduled daily naval intelligence summaries, preparation of articles of naval interest for weekly publication, and continuing research and evaluation of information being readied for long-range or in-depth studies. In addition, there is the requirement to provide timely response to unscheduled tasks received on a near daily basis from all levels of the Department of Defense and the operating forces. Action and reaction to flap situations which require support on a "short-fuze" basis are a fact of life and an accepted mode of operation.

(U) Those developments or events during 1968 considered noteworthy are as follows:

(U) On 10 June 1968 Captain Frank M. Murphy relieved Rear Admiral E. B. Fluckey as ACNO (Intelligence) and COMNAVINTCOM.

(U) On 8 July 1968 NFOIO began using the Program Management Information System, with the machine processing provided by the Naval Reconnaissance and Technical Support Center. This system was implemented with a view toward quantifying the NFOIO workload and to provide an Intelligence Production Management System designed for machine processing which would meet DOD concepts and requirements. Although the system has only been in effect for about six months, its feasibility and validity have been established. It has satisfied a long-standing requirement for

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

an NFOIO resource management tool.

(C) 8 August 1968 - Vice Admiral Noel Gayler visited the National Security Agency and NFOIO for the purpose of (a) a courtesy call on DIRNSA, Lieutenant General Carter; (b) orientation and tour of DEFSMAC; and (c) orientation and tour of NFOIO. Captain W. R. Quisenberry escorted the Admiral throughout the visit.

(U) 12 August 1968 - Rear Admiral Frederick J. Harlfinger II relieved Captain Murphy as ACNO (Intelligence) and COMNAVINTCOM.

II. NARRATIVE.

1. ~~(C)~~ Command Organization

The U. S. Navy Field Operational Intelligence Office is located at Fort George G. Meade, Maryland, in the National Security Agency Building. It is currently headed by a Captain who serves as Officer in Charge.

Mission:

a. Peacetime: To exploit processed SIGINT in the production of finished operational intelligence tailored to the requirements of the Defense Intelligence Agency, the Military Departments and the Unified, Specified and Fleet Commands; to provide for the timely dissemination of such intelligence so as to permit effective use by authorized recipients; and to assist the Defense Intelligence Agency and the Navy Department staff elements in planning and policy matters.

Wartime: Includes the above with greater emphasis on analysis and operational intelligence production effort in support of the operating forces afloat. An attendant requirement for increased resources would result during wartime with the change from a normal work week to an around-the-clock operation rather than any appreciable change in NFOIO's mission.

b. Operations

(1) Description -- NFOIO operations result in the production of a wide variety of finished intelligence on all aspects of foreign naval capability and activity. Intelligence products range from quick response messages on current developments to in-depth analysis of long-term

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

naval interest. The main effort is concentrated on the navies of communist and communist bloc countries with particular emphasis on the Soviet Navy. The products of this Office are used by the SECNAV, CNO, ACNO/I, fleet commands, JCS, DIA, U & S Commands and other designated recipients.

Functions:

a. Processes, evaluates and disseminates all-source intelligence relating to the in-progress operations of selected foreign naval/naval air forces and merchant/fishing fleets for the purpose of supporting Navy responsibilities in ocean surveillance and indications matters.

b. Operates and maintains the current operations data system (CODAS), in conjunction with NIPSSA, to facilitate the timely input and retrieval of ocean surveillance and indications-type intelligence.

c. Maintains a continuous around-the-clock watch section in direct support of the ocean surveillance center capable of performing immediate analysis and providing sustained updating of the CODAS data base essential to ocean surveillance/indications support functions.

d. Prepares articles and studies based on in-depth analysis of all-source intelligence dealing with the organization, capabilities, tactics and operational patterns of selected foreign naval/naval air forces and merchant/fishing fleets.

e. Conducts intensive and thorough reviews of information provided by special collection programs for the purpose of providing timely analytical feedback to such collection resources and preparing detailed evaluated intelligence inputs for the Navy intelligence data bases.

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

f. Conducts intelligence analysis and production in response to specific tasks levied upon NFOIO by DIA.

g. Provides inputs to National Intelligence Estimates and various joint/Navy studies and reviews draft contributions to such papers prepared by other activities.

h. Manages, in conjunction with NSA, the distribution of electrical and hard copy special intelligence products throughout the Naval Establishment.

i. Acts as communications guard for the Chief of Naval Operations, Commandant, Marine Corps and Commander, Naval Intelligence Command for electrical special intelligence products of interest to these commands.

j. Represents the Commander, Naval Intelligence Command in maintaining close liaison with NSA regarding special intelligence collection, processing and dissemination matters of concern to the Navy.

k. Originates collection requirements on special intelligence subjects of interest to the Navy.

l. Advises the Commander, Naval Intelligence Command on certain matters concerning the security of special intelligence; prepares/ promulgates doctrine, guidance and security directives for the control of certain sensitive compartmented intelligence and supervises product dissemination.

m. Advises NIPSSA and Navy contractors on matters concerning the application of automatic data processing techniques to Naval operational intelligence processing and analysis.

n. Maintains liaison with appropriate Governmental activities, civilian contractors and the National Security Agency to facilitate provision

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

of signals intelligence support to various research and development programs.

- o. Provides collateral intelligence support to NSA, including CNO and COMNAVINTCOM message support.
- p. Represents COMNAVINTCOM and/or ACNO (Intel) on various committees/working groups and at various international conferences.
- q. Serves as a special security officer subordinate to COMNAVINTCOM.
- r. Conducts training and qualification of NFOIO personnel assigned to special intelligence billets.
- s. Maintains NFOIO officer personnel service records and performs all administrative functions pertaining thereto.
- t. Conducts liaison with the Commandant, NDW on matters pertaining to area coordination.

2. ~~(S)~~ Operations

NFOIO as an element of ONI/NAVINTCOM provides operational intelligence support to the major fleet commands on an all-source 24-hour per day basis, as well as to SECNAV, CNO, and other appropriate commands/agencies.

In a general sense, NFOIO uniquely supplements all DIA services and products in the area of naval operational intelligence. This Office has been specifically tasked by DIA to provide special intelligence products in the areas of underseas warfare, submarine order-of-battle, naval air operations, and merchant shipping as pertains to the Soviets, CHICOMs,

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

and European and Asiatic Communist nations. Examples of some of the products produced by NFOIO may be found in "History of NFOIO 1944-1967."

3. (U) Special Topics

a. Medals, Awards and Commendations.

(1) During 1968, the following medals and awards were presented to a member of NFOIO in acknowledgement of achievement or services rendered:

Lieutenant (b) (6), USN, was presented the Second Air Medal 12 July 1968, a Navy Commendation Medal with Combat "V" on 5 August 1968, and a COMASWFORLANT letter of commendation 27 August 1968, all for services performed in South Vietnam.

(2) During 1968, the following NFOIO personnel, upon their detachment, were recommended for commendations and awards as indicated in recognition for their achievements and performance of duties while attached to this Office:

CDR (b) (6), USN - Navy Commendation Medal

MAJ (b) (6), USMC - Navy Commendation Medal

LCDR (b) (6), USN - Navy Achievement Medal

(b) (6), YNC, USN - Navy Achievement Medal

(b) (6), YNI, USN - Navy Achievement Medal

b. Distinguished visitor

Rear Admiral D. M. Showers, USN, A/COS Plans and Programs (DIAPL) made several informal visits to NFOIO aperiodically during the year.

18 April, 1968

Mr. W.R. Winkler
DIALG.

Dear *Mr. Winkler.*

May I express, on behalf of our Working Group, our thanks for the wonderful assistance and briefings given by you and the officers from AFNIOCC, NFOIO and USASRD on our recent visit to Fort Meade.

The considerable amount of planning and co-ordination that went into the preparation for our visit was most evident in the excellent discussions we had with each group.

We were greatly impressed with the general awareness of the scope and direction of Canada's efforts, which I am sure, made us more appreciative of the continued need for co-operation between us in these activities.

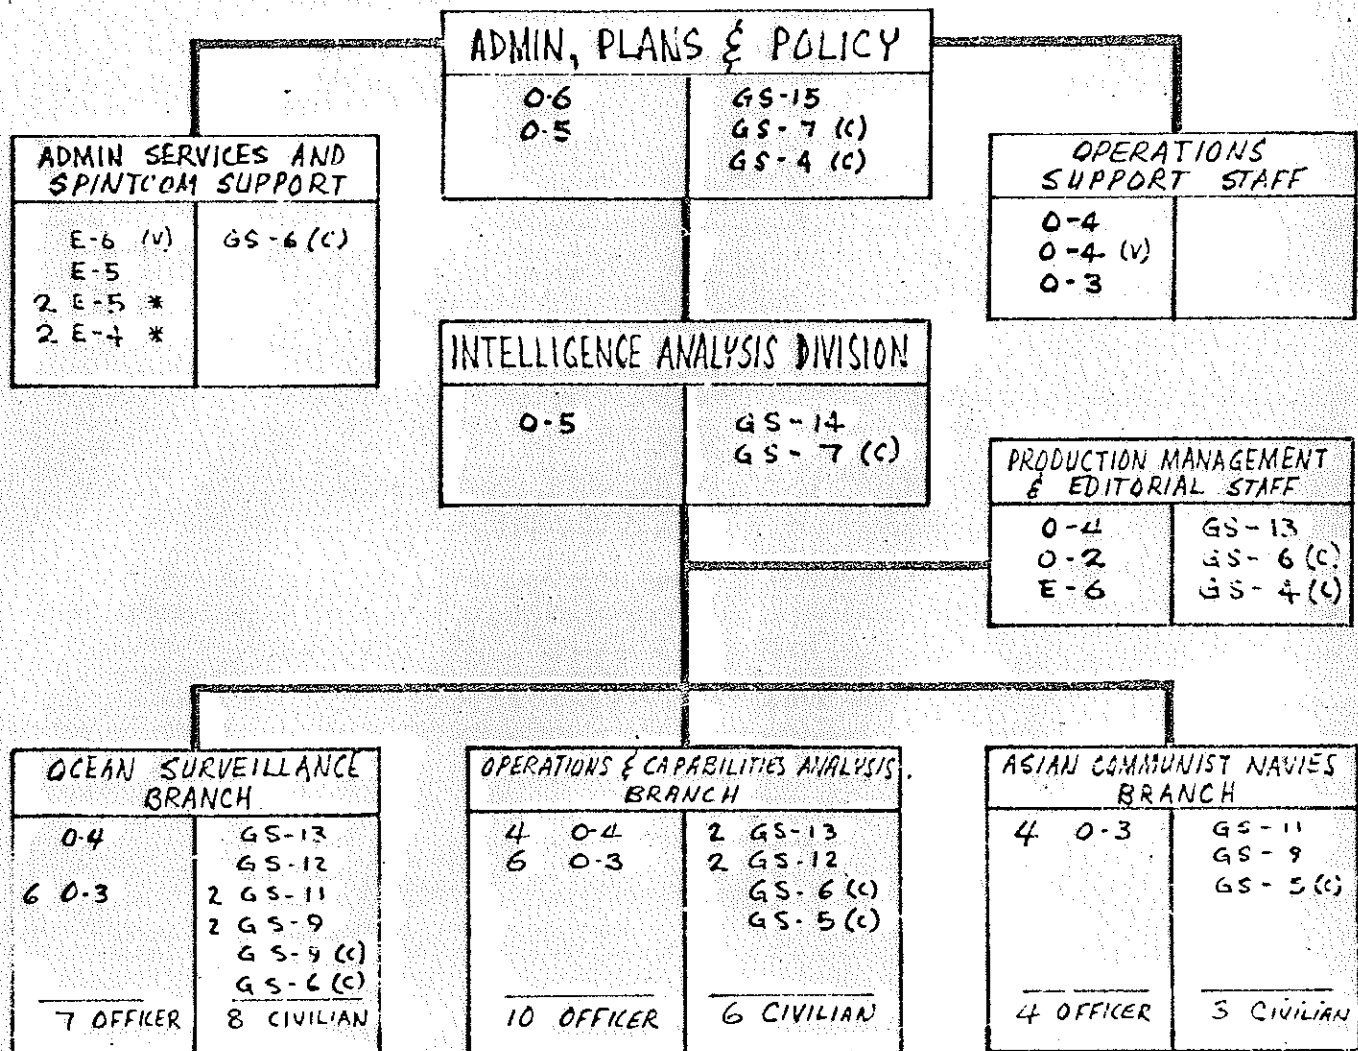

May I add my thanks to Captain William R. QUISENBERRY, USN, Colonel (b) (6) USAF, Lieutenant Colonel (b) (6) USA, and Mr. (b) (6). Please extend to them my best regards.

Yours sincerely,

Land File

I. CHRONOLOGY of Outstanding Events

~~(S)~~ In the normal course of events an intelligence production office does not usually experience significant events which permit identification for purposes of establishing a chronology of highlights. Day-to-day operations include production of scheduled daily naval intelligence summaries, preparation of articles of naval interest for weekly publication, and continuing research and evaluation of information being readied for long-range or in-depth studies. In addition, there is the requirement to provide timely response to unscheduled tasks received on a near daily basis from all levels of the Department of Defense and the operating forces. Action and reaction to flap situations which require support on a "short-fuze" basis are a fact of life and an accepted mode of operation.

(U) Those developments or events during 1970 considered noteworthy are as follows:

(U) 9 April 1970 - Rear Admiral A. Atley PETERSON, USNR-R, visited NFOIO, while performing two weeks ACDUTRA, to become familiar with NAVINTCOM and the field activities.

(U) 23 July 1970 - Captain John C. G. FIELD, RN, Defense Intelligence Staff (Navy) Ministry of Defense, London, England, visited NFOIO and received an operational briefing for orientation purposes.

(U) 14 August 1970 - Captain Donald P. HARVEY, USN, relieved Captain Emory R. SOURBEER, USN, as Officer in Charge, NFOIO.

(U) 12 August 1970 - Rear Admiral D. W. COOPER, USN, prospective COMCARDIV-9, visited NFOIO and received a current

~~SECRET~~

~~SECRET~~

~~SECRET~~

operational briefing on the Soviet and Chinese Communist naval posture in the western Pacific.

(U) 15 August 1970 - Vice Admiral I. KIDD, USN, prospective COMSIXTHFLT, visited NFOIO and received a current operational briefing on the Soviet naval posture in the Mediterranean Sea.

(U) 23 October 1970 - Captain John E. MOORE, RN, Head, D-13 (Navy) Ministry of Defense, London, England, visited NFOIO and received an operational briefing for orientation purposes.

II. NARRATIVE.

1. ~~(C)~~ Command Organization

The U. S. Navy Field Operational Intelligence Office is located at Fort George G. Meade, Maryland, in the National Security Agency Building. It is currently headed by a Captain who serves as Officer in Charge.

Mission:

a. Peacetime: To exploit processed SIGINT in the production of finished operational intelligence tailored to the requirements of the Defense Intelligence Agency, the Military Departments and the Unified, Specified and Fleet Commands; to provide for the timely dissemination of such intelligence so as to permit effective use by authorized recipients; and to assist the Defense Intelligence Agency and the Navy Department staff elements in planning and policy matters.

Wartime: Includes the above with greater emphasis on analysis and operational intelligence production effort in support of the operating forces afloat. An attendant requirement for increased resources would result during wartime with the change from a normal work week to an around-the-clock operation rather than any appreciable change in NFOIO's mission.

b. Operations

(1) Description -- NFOIO operations result in the production of a wide variety of finished intelligence on all aspects of foreign naval capability and activity. Intelligence products range from quick response messages on current developments to in-depth analysis of long-term

~~SECRET~~

~~SECRET~~

~~SECRET~~

naval interest. The main effort is concentrated on the navies of communist and communist bloc countries with particular emphasis on the Soviet Navy. The products of this Office are used by the SECNAV, CNO, ACNO/I, fleet commands, JCS, DIA, U & S Commands and other designated recipients.

Functions:

- a. Processes, evaluates and disseminates all-source intelligence relating to the in-progress operations of selected foreign naval/ naval air forces and merchant/fishing fleets for the purpose of supporting Navy responsibilities in ocean surveillance and indications matters.
- b. Operates and maintains the current operations data system (CODAS), in conjunction with NIPSSA, to facilitate the timely input and retrieval of ocean surveillance and indications type intelligence.
- c. Maintains a continuous around-the-clock watch section in direct support of the ocean surveillance center capable of performing immediate analysis and providing sustained updating of the CODAS data base essential to ocean surveillance/indications support functions.
- d. Prepares articles and studies based on in-depth analysis of all-source intelligence dealing with the organization, capabilities, tactics and operational patterns of selected foreign naval/ naval air forces and merchant/fishing fleets.
- e. Conducts intensive and thorough reviews of information provided by special collection programs for the purpose of providing timely analytical feedback to such collection resources and preparing detailed evaluated intelligence inputs for the Navy intelligence data bases.

~~SECRET~~ ~~SECRET~~

~~SECRET~~

~~SECRET~~

f. Conducts intelligence analysis and production in response to specific tasks levied upon NFOIO by DIA and COMNAVINTCOM.

g. Provides operational intelligence support to the Fleet and other commands in response to specified tasks; provides self-initiated operational intelligence support as appropriate.

h. Provides inputs to National Intelligence Estimates and various joint/Navy studies and reviews draft contributions to such papers prepared by other activities.

i. Coordinates with the issuing agencies the distribution of electrical and hard copy special intelligence products throughout the Naval Establishment.

j. Acts as communications guard for the Chief of Naval Operations, Commandant Marine Corps and Command, Naval Intelligence Command for electrical special intelligence products of interest to these commands.

k. Represents the Commander, Naval Intelligence Command in maintaining close liaison with cognizant agencies regarding special intelligence collection, processing and dissemination matters of concern to the Navy.

l. Originates collection requirements on special intelligence subjects of interest to the Navy.

m. Advises the Commander, Naval Intelligence Command on certain matters concerning the security of special intelligence; prepares/promulgates doctrine, guidance and security directives for the control

~~SECRET~~

~~SECRET~~

~~SECRET~~

~~SECRET~~

of certain sensitive compartmented intelligence and supervises product dissemination.

n. Advises NIPSSA and Navy contractors on matters concerning the application of automatic data processing techniques to Naval operational intelligence processing and analysis.

o. Maintains liaison with appropriate Governmental activities and Navy-sponsored civilian contractors pertaining to the collection processing and dissemination of signals intelligence information in support of the Navy's electronic warfare program.

p. Provides collateral intelligence support to a national agency, including CNO and COMNAVINTCOM message support.

q. Represents COMNAVINTCOM and/or ACNO (Intel) on various committees/working groups and at various international conferences.

r. Serves as a special security officer subordinated to COMNAVINTCOM.

s. Conducts training and qualification of NFOIO personnel assigned to special intelligence billets.

t. Maintains NFOIO officer personnel service records and performs all administrative functions pertaining thereto.

u. Conducts liaison with the Commandant NDW on matters pertaining to area coordination.

2. ~~(S)~~ Operations

NFOIO as an element of ONI/NAVINTCOM provides operational intelligence support to the major fleet commands on an all-source

~~SECRET~~

~~SECRET~~

~~SECRET~~

24-hour per day basis, as well as to SECNAV, CNO, and other appropriate commands/agencies.

In a general sense, NFOIO uniquely supplements all DIA services and products in the area of naval operational intelligence. This Office has been specifically tasked by DIA to provide special intelligence products in the areas of underseas warfare, submarine order-of-battle, naval air operations and merchant shipping as pertains to the Soviets, CHICOMs, and European and Asiatic Communist nations. Examples of some of the products produced by NFOIO may be found in "History of NFOIO 1944-1967."

3. (U) Special Topics

a. Medals, Awards and Commendations

(1) During 1970, the following medals and awards were presented to members of NFOIO in acknowledgement of achievement or services rendered prior to reporting to NFOIO for duty:

Lieutenant Commander (b) (6), USN, was presented the Joint Service Commendation Medal for services performed in South Vietnam,

Lieutenant (b) (6) USN, was presented the Air Medal for services performed in Southeast Asia,

Lieutenant (b) (6) USNR, was presented the Air Medal for services performed in Southeast Asia.

Lieutenant (b) (6) USN, was presented the Navy Commendation Medal for services performed in Southeast Asia.

~~SECRET~~

I. CHRONOLOGY of Outstanding Events

~~(S)~~ In the normal course of events an intelligence production office does not experience events which permit identification for purposes of establishing a chronology of highlights. Day-to-day operations include production of scheduled daily naval intelligence summaries, preparation of articles of naval interest for weekly publication, and continuing research and evaluation of information being readied for long-range or in-depth studies. In addition there are recurring requirements to provide timely response to unscheduled tasks received on a near daily basis from all levels of the Department of Defense and the operating forces. Action and reaction to flap situations requiring immediate response have been accepted as ^a way of life.

(U) Those developments or events during 1971 considered to be noteworthy are:

(U) 18 January 1971 - Commensurate with an NAVINTCOM/NFOIO realignment of resources the Ocean Surveillance Branch of NFOIO was relocated from the Ft. Meade, Maryland office to the NRTSC/STIC building complex at Suitland, Maryland, to become the nucleus of the Ocean Surveillance Information Division (OSID). This Division, elevated from Branch level, became operational on 1 February 1971.

(U) In conjunction with the move of the current reporting branch to Suitland, greater emphasis was begun on underseas warfare intelligence production by the Intelligence Analysis Division (IAD) at Ft. Meade.

~~SECRET~~

~~SECRET~~

~~SECRET~~

As a part of this increased effort; a Word Processing Center was established to improve hard copy production efficiency; the personnel strength of the Underseas Warfare Branch was increased to devote more analytic effort to USW intelligence exploitation; various information processing, filing and retrieval systems were installed to enhance data recall capabilities; and the civilian personnel compliment at Ft. Meade was increased to a ceiling of 54 (25 military and 29 civilians) to cope with the ever-increasing amount of intelligence information to be analyzed.

(U) Along with the expansion of the IAD at Ft. Meade, the OSID at Suitland was growing from the original nucleus of 15 military and civilian personnel to an established FY 1972 ceiling of 79 (21 military and 58 civilians) on 31 December 1971. Budgetary constraints, the personnel freeze and grade-level controls, however, have precluded NFOIO from achieving the full organizational strength.

(U) 15 March 1971 - The Office of Command Support Programs, Op-094 was established this date under RADM F. J. HARLFINGER II, USN, and Captain E. F. RECTANUS, USN, assumed the duties as Director of Naval Intelligence, (Acting) during the period of transition.

(U) 13 April 1971 - Captain E. F. RECTANUS, USN, (DNI, Acting) visited NFOIO and received an operational briefing for orientation purposes.

(U) 4 August 1971 - RADM G. E. MILLER, USN, prospective COM-SIXTHFLT, visited NFOIO and received a current operational briefing on the Soviet naval posture in the Mediterranean Sea.

~~SECRET~~

~~SECRET~~

~~SECRET~~

(U) 31 August 1971 - VADM V. P. De POIX, USN, COMSECONDFLT and the senior members of his staff visited NFOIO and received a current operational briefing on the Soviet presence in the Atlantic and Caribbean areas.

(U) 19 October 1971 - Commodore Roger VILLAR, RN, Deputy, Director of Services Intelligence (Navy), London, England, visited NFOIO and received an operational briefing for orientation purposes.

(U) 12 November 1971 - Captain Richard W. BATES, USN, relieved Captain Donald P. HARVEY, USN, as Officer in Charge, NFOIO.

(U) One of the most gratifying occurrences during 1971 was receipt of the Meritorious Unit Commendation from the Secretary of the Navy. This award was presented to NFOIO for service as set forth in the following citation:

"For meritorious service from 1 April 1969 to 1 July 1970 in providing all-source operational intelligence support to the Chief of Naval Operations, Commandant of the Marine Corps, Defense Intelligence Agency, the Military Departments and the Unified, Specified and Fleet Commands. Working under pressures of time and personnel resource limitations, the Navy Field Operational Intelligence Office distinguished itself by successfully meeting the challenge of providing vital intelligence support to the Navy's operating forces and national headquarters. By their professionalism, resourcefulness, foresight, and dedicated efforts, the officers and men of the Navy Field Operational Intelligence Office contributed significantly to the tasks and missions of the Naval Intelligence Command

~~SECRET~~

II. NARRATIVE.

1. ~~(C)~~ Command Organization

The Navy Field Operational Intelligence Office (NFOIO) is located at Fort George G. Meade, Maryland, in the National Security Agency building complex. It is normally headed by a Captain who serves as the Officer in Charge.

a. Mission:

Peacetime: To exploit processed SIGINT in the production of finished operational intelligence tailored to the requirements of the Defense Intelligence Agency, the Military Departments and the Unified and Specified and Fleet Commands; to provide for the timely dissemination of such intelligence so as to permit effective use by authorized recipients; and to assist the Defense Intelligence Agency and the Navy's staff elements in planning and policy matters.

Wartime: Includes the above with greater emphasis on analysis and operational intelligence production effort in support of the operating forces afloat. An attendant requirement for increased resources would result during wartime with the change from a normal work week to an around-the-clock operation in both divisions rather than any appreciable change in NFOIO's mission.

b. Operations:

(1) Description -- NFOIO operations result in the production of a wide variety of finished intelligence on all aspects of foreign naval capability and activity. Intelligence products range from quick response

~~SECRET~~

~~SECRET~~

~~SECRET~~

messages on current developments to in-depth analysis of long-term naval intelligence. The main effort is concentrated on the navies of communist countries with particular emphasis on the Soviet Navy. The intelligence documents produced by this Office are used by the SECNAV, CNO, ACNO/I, JCS, DIA, U & S Commands, Fleet Commands and other designated recipients.

Functions:

(1) Processes, evaluates and disseminates all-source intelligence relating to the in-progress operations of selected foreign naval/naval air forces and merchant/fishing fleets for the purpose of supporting Navy responsibilities in ocean surveillance matters.

(2) Operates and maintains the current operations data system, in conjunction with NIPSSA, to facilitate the timely input and retrieval of ocean surveillance intelligence.

(3) Maintains a continuous around-the-clock watch section in direct support of the ocean surveillance center capable of performing immediate analysis and providing sustained updating of the data base essential to ocean surveillance support functions.

(4) Prepares articles and studies based on in-depth analysis of all-source intelligence dealing with the organization, capabilities, tactics and operational patterns of selected foreign naval/naval air forces and merchant/fishing fleets.

(5) Conducts intensive and thorough reviews of information provided by special collection programs for the purpose of providing

~~SECRET~~

timely analytical feedback to such collection resources and preparing detailed evaluated intelligence inputs for the Navy intelligence data bases.

(6) Conducts intelligence analysis and production in response to specific tasks levied upon NFOIO by DIA and COMNAVINTCOM.

(7) Provides operational intelligence support to the Fleet and other Commands in response to specified tasks; provides self-initiated operational intelligence support as appropriate.

(8) Acts as COMNAVINTCOM coordinator, and intelligence production focal point, in matters regarding foreign ocean surveillance systems and activities.

(9) Provides inputs to National Intelligence Estimates and various joint/ Navy studies and reviews draft contributions to such papers prepared by other activities.

(10) Coordinates with the issuing agencies the distribution of electrical and hard copy special intelligence products throughout the Naval Establishment.

(11) Acts as communications guard for the Chief of Naval Operations, Commandant Marine Corps and Commander, Naval Intelligence Command for electrical special intelligence products of interest to these commands.

(12) Represents the Commander, Naval Intelligence Command in maintaining close liaison with cognizant agencies regarding special intelligence collection, processing and dissemination matters of concern to the Navy.

~~SECRET~~

~~SECRET~~

(13) Originates collection requirements on special intelligence subjects of interest to the Navy.

(14) Advises the Commander, Naval Intelligence Command on certain matters concerning the security of special intelligence; prepares/promulgates doctrine, guidance and security directives for the control of certain sensitive compartmented intelligence and supervises product dissemination.

(15) Advises NIPSSA and Navy contractors on matters concerning the application of automatic data processing techniques to Naval operational intelligence processing and analysis.

(16) Maintains liaison with appropriate Governmental activities and Navy-sponsored civilian contractors pertaining to the collection processing and dissemination of signals intelligence information in support of the Navy's electronic warfare program.

(17) Provides collateral intelligence support to a national agency, including CNO and COMNAVINTCOM message support.

(18) Represents COMNAVINTCOM and/or ACNO (Intel) on various committees/ working groups and at various international conferences.

(19) Serves as a special security officer subordinate to COMNAVINTCOM.

(20) Conducts training and qualification of NFOIO personnel assigned to special intelligence billets.

(21) Maintains NFOIO officer personnel service records and performs all administrative functions pertaining thereto.

~~SECRET~~

~~SECRET~~

~~SECRET~~

(22) Conducts liaison with the Commandant NDW on matters pertaining to area coordination.

2. ~~(S)~~ Operations

NFOIO as a main intelligence production element of ONI/NAVINTCOM provides operational intelligence support to the major fleet commands on an all-source 24-hour-per-day basis, as well as to SECNAV, CNO and other appropriate commands and agencies.

In a general sense, NFOIO uniquely supplements all DIA services and products in the area of naval operational intelligence. This Office has been specifically tasked by DIA to provide special intelligence products in the areas of underseas warfare, submarine order-of-battle, naval air operations and merchant shipping as pertains to the Soviets, CHICOMs, and European and Asian Communist countries. Examples of some of the intelligence products produced by NFOIO may be found in prior NFOIO history submissions.

3. (U) Special Topics

a. Medals, Awards and Commendations

(1) During 1971, the following medals and awards were presented to members of NFOIO in acknowledgement of achievement or services rendered prior to reporting to NFOIO for duty:

Yeoman Third Class (b) (6), USN, was presented the Meritorious Unit Commendation for service in USS ORISKANY (CVA-34).

Commander (b) (6) USN, was presented the Republic of Vietnam Armed Forces Meritorious Unit Citation (Gallantry Cross) for services performed in Southeast Asia.

~~SECRET~~

~~SECRET~~

~~SECRET~~

Lieutenant Commander (b) (6), USN, was presented the Meritorious Service Medal for service in support of combat operations in Southeast Asia.

Lieutenant (b) (6), USN, was presented the Vietnamese First Class Staff Service Honor Medal for services performed in Southeast Asia.

Yeoman Second Class (b) (6), USN, was presented a Letter of Commendation for services performed in Southeast Asia.

Lieutenant (b) (6), USN, was presented the Air Medal (Second and Third Award) for services during combat operations in Southeast Asia.

Lieutenant Commander (b) (6), USN, was presented a Letter of Appreciation for services performed while a member of the U. S. Naval Investigative Service Office, Europe.

Lieutenant Commander (b) (6), USN and Yeoman Third Class (b) (6), USN, were presented Bronze Stars for their Vietnam Service Medals for services performed in Southeast Asia.

Yeoman Second Class (b) (6), USN, was presented the Navy Achievement Medal for services performed in Southeast Asia.

Commander (b) (6), USN, was awarded the Meritorious Service Medal for his performance of duties while assigned to the National Security Agency as a member of ACNSG.

(2) During 1971, the following NFOIO personnel, upon their detachment, were presented with or recommended for awards, commen-

dations and medals, as indicated, in recognition of their achievements and performance of duties while attached to this Office.

Lieutenant Commander (b) (6) USN - Letter of Appreciation from Chief of Naval Operations.

Lieutenant (b) (6), USN - Navy Achievement Medal.

Lieutenant Commander (b) (6), USN - Navy Achievement Medal.

Lieutenant (b) (6), USN - Navy Commendation Medal.

Communications Technician Second Class (b) (6) USN - Navy Achievement Medal.

Commander (b) (6), USN - Meritorious Service Medal.

(3) During 1971, the following NFOIO personnel presently attached to this Office were presented with awards, commendations and medals, as indicated, in recognition of their achievement and performance of duties while serving as members of this Office:

Commander (b) (6), USN, and Lieutenant Commander (b) (6) USN - Letters of Appreciation from COMNAVINTCOM for their participation in the SECOND Fleet Symposium.

Mr. E. H. LEVINE - Letter of Appreciation from NAVINTCOM for his participation in SILVER FOX operations as a member of TF-168.

Lieutenant (b) (6), USN - Letter of Appreciation from COMNAVINTCOM for his participation in the establishment of the Fleet Ocean Surveillance Information Facility in Rota, Spain.

~~SECRET~~

~~SECRET~~

BIOGRAPHY

CAPTAIN RICHARD W. BATES, U. S. Navy

Captain BATES is a 1948 graduate of the United States Naval Academy and has been an intelligence specialist in the Navy since 1952.

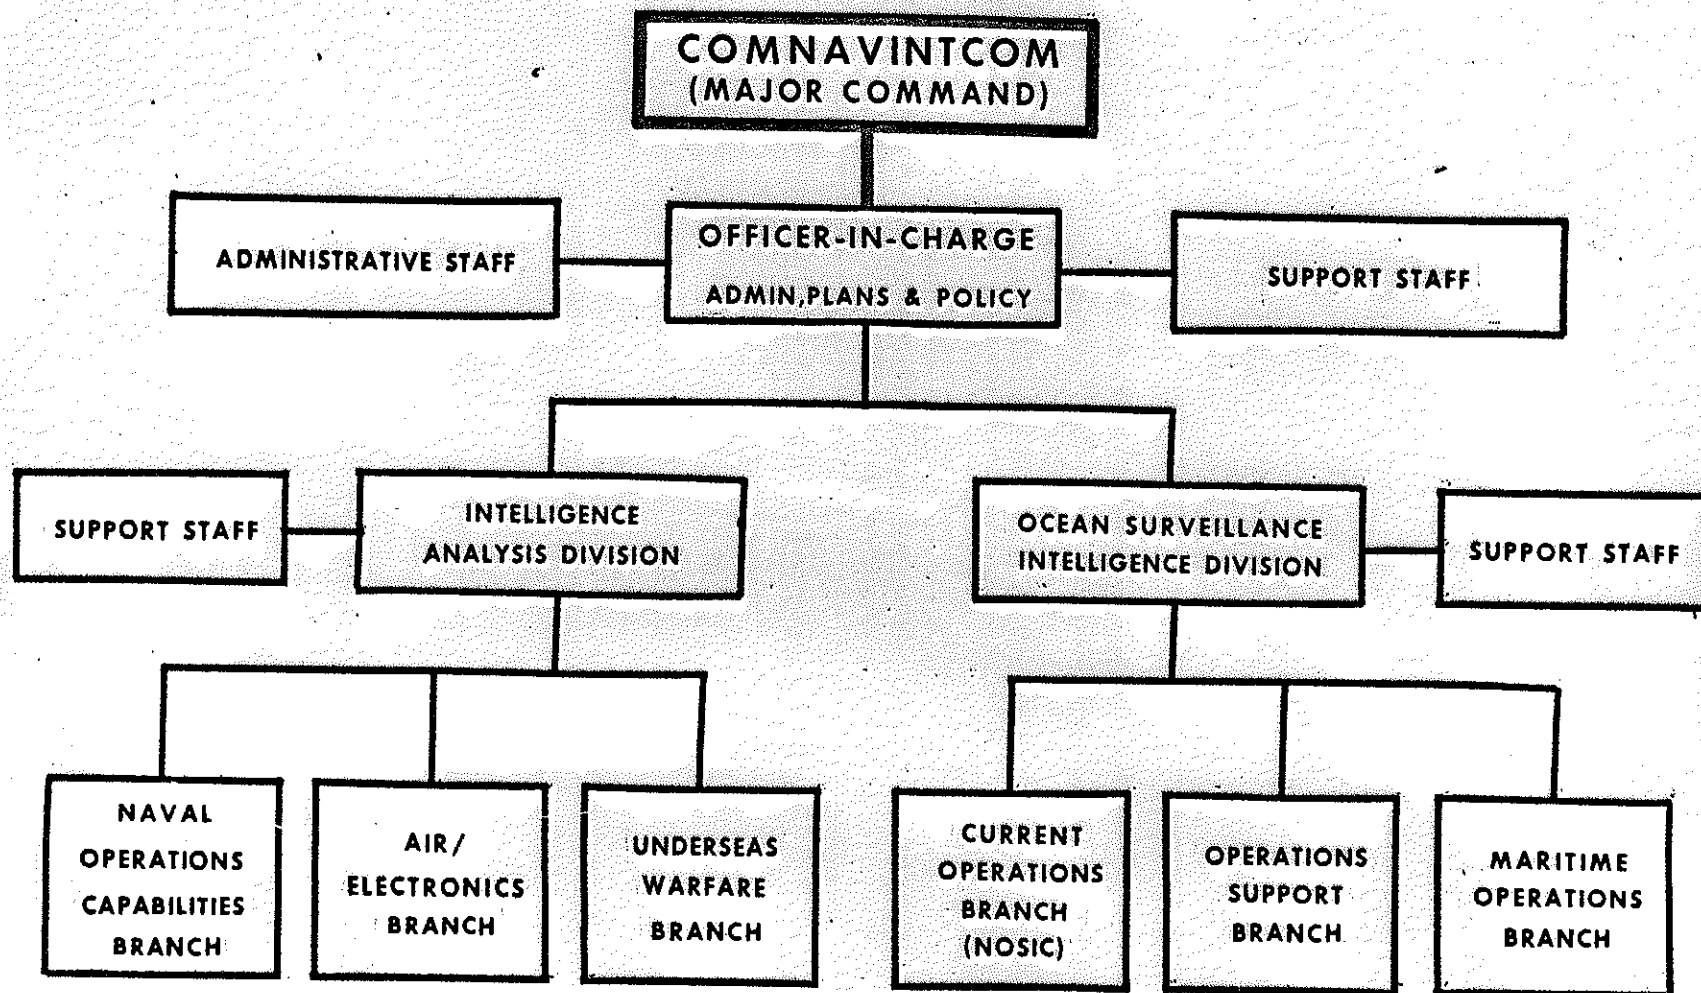

Captain BATES holds a Masters Degree in Foreign Affairs from George Washington University, and is a graduate of the Naval Intelligence School, the Navy Language School and the Naval War College.

Since becoming an intelligence specialist, Captain BATES has completed two tours in the Office of Naval Intelligence. He also has served with the Defense Intelligence Agency for two tours, having gone to the Agency as a member of the Editorial and Briefing Unit when it was formed in 1961. He has also served as the principal intelligence officer to the Commander Service Force SIXTH Fleet, Commander Naval Forces Philippines, the President of the Naval War College and the Commander FIRST Fleet, and has also served as Assistant Naval Attache in the United Arab Republic, resident in Port Said. He assumed duties as Officer in Charge of the Navy Field Operational Intelligence Office on 12 November 1971.

Captain BATES is a native of California. He enlisted in the Navy in April 1942.

I. CHRONOLOGY of Outstanding Events

A. ~~(S)~~ In the normal course of events an intelligence production office does not experience events which permit identification for purposes of establishing a chronology of highlights. Day-to-day operations include production of scheduled daily naval intelligence summaries, preparation of articles of naval interest for weekly publication, and continuing research and evaluation of information being readied for long-range or in-depth studies. In addition, there are recurring requirements to provide timely response to unscheduled tasks received on a near daily basis from all levels of the Department of Defense and the operating forces. Action and reaction to "flap" situations requiring immediate response have been accepted as way of life.

The single most significant manifestation of the increased intelligence support capabilities of NFOIO occurred in support of increased U. S. naval operations in Southeast Asia attendant to President Nixon's decision to mine the approaches to North Vietnamese ports. Utilizing its capability for continuous intelligence processing and analysis operations, NFOIO's Ocean Surveillance Information Division (OSID) was able to respond immediately to urgent Pacific Fleet requests for information of Soviet and NVN naval and air forces disposition, minesweeping resources and on the status of Communist and Free World merchant ships in or en route North Vietnamese ports. This information was provided via the dedicated communications circuits and updated on a continuous basis as additional information became available.

In addition to fleet support, NFOIO provided continuous information, analysis service, and manpower to a special Naval Intelligence Reaction Team (NAVIRT) established in the Pentagon to provide direct support to the CNO and other senior naval authorities. The scope of such support extended beyond that provided theatre level commands in that coverage included worldwide Communist activities of both potential strategic and tactical implication, and was intended to provide the CNO (as a member of JCS) early indication of incipient reaction to the U. S. initiatives in Vietnam.

Significant progress towards achievement of maximum utilization of modern automated data handling techniques, was realized. The first phase of the (b) (3) (A)

(b) (3) (A)

(b) (3) (A)

Specific noteworthy activities conducted during the year are as follows:

1. Prior to, during and after the commencement of mining operations in Haiphong Harbor, OSID provided all-source evaluated intelligence support on a 24-hour-a-day basis, to CNO and CINCPACFLT via dedicated (b) (3) (A) CROSSCOM circuits as well as other Washington area intelligence agencies/offices via secure telephones. Specific intelligence support included locating information on all Free World merchant ships within the Indian Ocean, South China Sea and Pacific Oceans; all-source intelligence reporting.

Commencing in April, daily reports were disseminated to CINCPACFLT and CNO (NAVIRT/IP) via (b) (3) CROSSCOM circuits and to STATE via SPINTCOM channels, containing all-source analysis on all mer ships en route to, declared for, or departing NVN waters as well as any significant cargo or activity noted in NVN. Daily reporting continued to CNO until 10 June and to CINCPACFLT and STATE until 15 August.

A dedicated OSID/CNO CROSSCOM circuit was established in April to provide timely intelligence reporting on significant NVN activities. During the period 26 April to 10 June, approximately 400 summaries, spot reports, and query responses were sent to IP and approximately 800 to CINCPACFLT.

For the period 23 April to 4 August, approximately 110 Southeast Asia summary reports were disseminated via SPINTCOM to CNO, COMNAVINTCOM and various fleet commanders. The report included hostile fire activity against U. S. naval gunfire support units, NVN air/NVN infiltration trawler activity, CHICOM air and South Sea mer ship activity and Soviet naval activity.

Approximately 60 reports with an average of 285 Free World mer ships in each report were disseminated to CINCPACFLT and CNO via (b) (3) CROSSCOM circuits. In the month of May alone, 3.17 man-years of effort were devoted to support of the intensified actions in the Gulf of Tonkin area.

Beginning in late April, NFOIO provided ten analysts to man the NAVIRT and one each to augment CINCPACFLT Staff and the FICPACFAC "Linebacker Analysis Group." An augmentee to FICPACFAC remains a continuing requirement to date.

2. In January, a new all-source weekly message report for fleet commanders, CNO and COMNAVINTCOM concerning worldwide Soviet submarine out-of-area operations (SOAR) was instituted. This report has been the subject of formal acclaim as one of the best and most unique intelligence support messages received by CNO and FLTCINCS.

3. "HOT WASH UP" reporting of major Soviet naval evolutions were initiated by NFOIO. These reports, which were issued within three working days of the completion of the activity, contain an all-source resume of the activity together with any significant trends, deviations from past patterns, or new development. "HOT WASH UP" reports were issued on the following subjects:

ASW ACTIVITY BY CHG LENINGRAD IN THE MEDITERRANEAN
9 - 13 JANUARY 1972

INITIAL SOVIET REACTION TO THE "M-11" SSBN CASUALTY
IN THE NORTH ATLANTIC

SOVIET SS-N-3 FIRING IN THE MEDITERRANEAN ON 27 MAY 1972

SOVIET PACIFIC FLEET IN-AREA EXERCISE 26 - 28 JUNE 1972

SOVIET REACTION TO EXERCISE "EXPERT SEAMAN"
31 JULY - 18 AUGUST 1972

SOVIET REACTION TO NATO EXERCISE "STRONG EXPRESS"
14 - 28 SEPTEMBER 1972

SOVIET REACTION TO "SILVER FOX" BLACK SEA OPERATIONS
4 - 9 OCTOBER 1972

4. Over 35 major briefings on 14 different subjects were presented to audiences which included the President's Scientific Advisory Committee (PSAC), the Defense Science Board (DSB), the Pacific Fleet Flag Symposium, the Naval War College, the Naval Postgraduate School, and the CONUS Numbered Fleet Symposia. Included in this number were the first Soviet Navy Threat Briefs to USNPGS, Monterey, which is to be an annual occurrence.

(b) (3) (A)

(b) (3) (A)

7. In late September, forwarded the first CINCLANTFLT Daily Summary that included (b) evaluation intelligence information on merchant and fishing activity in LANTFLT's area of interest. Data was derived from the newly-created (b) (3) (A). This new report eliminates the need for CINCLANT to input, process and manually evaluate raw merchant and fishing inputs.

On 2 October, OSID began a phased-in program of ADP support to CINCLANTFLT in the area of merchant shipping and fishing intelligence. This daily support will result in a savings of 1 1/2 man-days per day at CINCLANTFLT.

8. In October and November, OSID internal organization and operations were modified to provide a consistently high quality analytical team round-the-clock, to disseminate the various ocean sections of the Daily Soviet Fleet Activities Summary at an optimum time for fleet consumers in the ocean areas, to provide a formal training for OPINTEL watch analysts, and to establish a non-Soviet Navies Desk with primary cognizance over

Asian Communist, Warsaw Pact and other Soviet support Navies.

9. Assigned the analytical mission to study the (b) (3) (A) and produced the first study.

10. Output reports from the (b) (3) data base in calendar 1972 totaled approximately 9400 reports, representing a 32 per cent increase over 1971. Ad hoc reports for 1972 totaled approximately 400, a slight decrease from the previous year.

Average monthly General Service messages received in 1972 totaled 12,275. Average monthly Special Intelligence messages received totaled 17,250. During the year, the NOSIC's automated data handling system processed approximately 15,000 ocean surveillance information entries daily.

II. NARRATIVE

A. ~~(C)~~ Command Organization

The Navy Field Operational Intelligence Office (NFOIO) is a field activity of the Commander, Naval Intelligence Command. The activity is comprised of three divisions and an operating staff which are geographically located at Fort Meade as a tenant of the National Security Agency and at the Naval Ocean Surveillance Information Center, Suitland, Maryland. NFOIO is normally headed by a Captain, who serves as Officer in Charge.

This activity is under the command and primary support of the Commander, Naval Intelligence Command and the area coordination of the Commandant, Naval District Washington, D. C.

1. Mission

Peacetime: To exploit processed SIGINT in the production of finished operational intelligence tailored to the requirements of the Defense Intelligence Agency, the Military Departments and the Unified and Specified and Fleet Commands; to provide for the timely dissemination of such intelligence so as to permit effective use by authorized recipients; and to assist the Defense Intelligence Agency and the Navy's staff elements in planning and policy matters.

Wartime: Includes the above with greater emphasis on analysis and operational intelligence production effort in support of the operating forces afloat. An attendant requirement for increased resources would result during wartime with the change from a normal work week to an around-the-clock operation in both analytical divisions rather than any appreciable change in NFOIO's mission.

2. Functions

a. Processes, evaluates and disseminates all-source intelligence relating to the in-progress operations of selected foreign naval/ naval air forces and merchant/fishing fleets for the purpose of supporting Navy responsibilities in ocean surveillance matters.

b. Operates and maintains the current operations data system (SEA WATCH), in conjunction with NIPSSA, to facilitate the timely input and retrieval of ocean surveillance intelligence.

c. Maintains a continuous around-the-clock watch in the Naval Ocean Surveillance Information Center, capable of performing immediate analysis and providing sustained updating of the data base essential to ocean surveillance support functions.

d. Prepares articles and studies based on in-depth analysis of all-source intelligence dealing with the organization, capabilities,

tactics and operational patterns of selected foreign naval/naaval air forces and merchant/fishing fleets.

e. Conducts intensive and thorough reviews of information provided by special collection programs for the purpose of providing timely analytical feedback to such collection resources and preparing detailed evaluated intelligence inputs for the Navy intelligence data bases.

f. Conducts intelligence analysis and production in response to specific tasks levied upon NFOIC by DIA and COMNAVINTCOM.

g. Provides operational intelligence support to the Fleet and other Commands in response to specified tasks; provides self-initiated operational intelligence support as appropriate.

h. Acts as COMNAVINTCOM coordinator, and intelligence production focal point, in matters regarding foreign ocean surveillance systems and activities.

i. Provides inputs to National Intelligence Estimates and various joint/Navy studies and reviews draft contributions to such papers prepared by other activities.

j. Coordinates with the issuing agencies the distribution of electrical and hard copy special intelligence products throughout the Naval Establishment.

k. Acts as communications guard for the Chief of Naval Operations, Commandant, Marine Corps and Commander, Naval Intelligence Command for electrical special intelligence products of interest to these commands.

l. Represents the Commander, Naval Intelligence Command in maintaining close liaison with cognizant agencies regarding special intelligence collection, processing and dissemination matters of concern to the Navy.

m. Originates collection requirements on special intelligence subjects of interest to the Navy.

n. Advises the Commander, Naval Intelligence Command on certain matters concerning the security of special intelligence; prepares/promulgates doctrine, guidance and security directives for the control of certain sensitive compartmented intelligence and supervises product dissemination.

o. Advises NIPSSA and Navy contractors on matters concerning the application of automatic data processing techniques to Naval operational intelligence processing and analysis.

p. Maintains liaison with appropriate Governmental

activities and Navy-sponsored civilian contractors pertaining to the collection processing and dissemination of signals intelligence information in support of the Navy's electronic warfare program.

q. Performs those tasks assigned by COMNAVINTCOM outlined in the Plan for Foreign Naval Intelligence Cooperation (NIC-CS-70-1-72).

r. Provides collateral intelligence support to a national agency, including CNO and COMNAVINTCOM message support.

s. Represents COMNAVINTCOM and/or ACNO(Intel) on various committees/working groups and at various international conferences.

t. Serves as a special security officer subordinate to COMNAVINTCOM.

u. Conducts training and qualification of NFOIO personnel assigned to special intelligence billets.

v. Maintains NFOIO officer personnel service records and performs all administrative functions pertaining thereto.

w. Conducts liaison with the Commandant, NDW on matters pertaining to area coordination.

3. Operations

a. Description -- NFOIO operations result in the production of a wide variety of finished intelligence on all aspects of foreign naval capability and activity. Intelligence products range from quick response messages on current developments to in-depth analysis of long-term naval intelligence. The main effort is concentrated on the navies of communist countries with particular emphasis on the Soviet Navy. The intelligence documents produced by this Office are used by the SECNAV, CNO, ACNO/I, JCS, DIA, U&S Commands, Fleet Commands and other designated recipients.

B. ~~(S)~~ Operations

NFOIO, as a main intelligence production element of ONI/NAVINTCOM, provides operational intelligence support to the major fleet commands on an all-source 24-hour-per-day basis, as well as to SECNAV, CNO and other appropriate commands and agencies.

In a general sense, NFOIO uniquely supplements all DIA services and products in the area of naval operational intelligence. This Office has been specifically tasked by DIA to provide special intelligence products in the areas of underseas warfare, submarine order-of-battle, naval air operations and merchant shipping as pertains to the Soviets, CHICOMs, and European and Asian Communist countries. Examples of some of the intelligence products produced by NFOIO may be found in prior

NFOIO history submissions.

C. (U) Special Topics

1. Awards and Commendations

a. During 1972, the following medals and awards were presented to members of NFOIO in acknowledgement of achievement or services rendered prior to reporting to NFOIO for duty:

LT (b) (6) was presented with the Air Medal (First Strike/Flight Award) and with the Navy Commendation Medal with Combat Distinguishing Device for meritorious service in the Republic of Viet Nam with COMNAVFORV and COMUSMACV.

LCDR (b) (6) was presented with the Meritorious Service Medal for meritorious service with CINCPACFLT Staff.

LT (b) (6) was presented with the Republic of Viet Nam Staff Service Honor Medal First Class for service with COMNAVFORV.

LT (b) (6) was presented with the Republic of Viet Nam Staff Service Honor Medal First Class for service with COMNAVFORV.

b. The following NFOIO personnel, upon their detachment, were presented with awards and commendations as indicated, in recognition of their achievements and performance of duties while attached to this Office:

LT (b) (6) was presented with the Navy Commendation Medal.

LT (b) (6) was presented with the Navy Commendation Medal.

DM1 (b) (6) received a gold star in lieu of a second Navy Achievement Medal.

LT (b) (6), received the Navy Achievement Medal for superior performance as Senior OPINTEL Watch Officer in the Naval Ocean Surveillance Information Center.

CDR (b) (6) received the Meritorious Service Medal for outstanding performance as Air Warfare Branch Head.

c. During 1972, the following NFOIO personnel, while attached to this Office, were presented with awards, commendations and medals, as indicated, in recognition of their achievement and performance of duties:

CDR (b) (6) was presented with the Meritorious

Service Medal for meritorious performance as Division Director of the Ocean Surveillance Information Division during the establishment and orientation of the SOSIC.

LT (b) (6) received a message of appreciation from COMNAVINTCOM for consistent outstanding support during his tour of duty at NFOIO.

LCDR (b) (6) received a letter of appreciation from BNI for outstanding support during his tour of duty at NFOIO.

LCDR (b) (6) received a letter of appreciation from COMNAVINTCOM for his contribution as support team leader for the February 1972 SILVER FOX operation.

LT (b) (6) received a letter of appreciation from COMASWGROUPOUR for outstanding performance during operations EXPERT SEAMAN and UPPER HAND.

CAPT Richard W. BATES and Mr. (b) (6) received a letter of appreciation from the Superintendent, Naval Postgraduate School for an excellent air warfare brief.

CDR (b) (6) and LCDR (b) (6) received a letter of appreciation from Commandant, Defense Intelligence School for conducting briefings and tours for students.

LT (b) (6) received letters of appreciation from COMNAVINTCOM and CTF-168 for his contribution as support team leader during the November 1971 SILVER FOX operation.

LT (b) (6) received a letter of appreciation from Commanding Officer of ACSI-SRD for an analysis of Soviet amphibious capability.

LCDR (b) (6) received a letter of appreciation from SECNAV for assistance during the visit of the Soviet Naval Delegation.

A letter of appreciation from COMNAVINTCOM was presented to the following officers and civilians for their contributions to the NAVIRT:

LCDR (b) (6)
CAPT (b) (6), USMC
LT (b) (6)
LT (b) (6)
MR (b) (6)
Mr. (b) (6)
Mr. (b) (6)
Mr. (b) (6)
Mr. (b) (6)

CAPT Richard W. BATES and LCDR (b) (6) received a letter of appreciation from the Superintendent, Naval Postgraduate School for an impressive surface warfare brief.

CDR (b) (6) LCDR (b) (6) and CAPT (b) (6) (b) (6) USMC, received a letter of appreciation from COMUSMACV for an outstanding briefing presented to the Second Fleet Naval Warfare Committee.

LCDR (b) (6) received a letter of appreciation from the President of the Fiscal Year 1974 Postgraduate Selection Board for outstanding performance as a member of the Board.

Mr. (b) (6) received a letter of appreciation from the CO, Naval Control of Shipping Organization for an interesting and effective brief on the Soviet Submarine Threat.

Mr. (b) (6) and LCDR (b) (6) received a letter of appreciation from the Commandant, Defense Intelligence School for a brief on Soviet Command and Control.

Mrs. (b) (6) received a letter of congratulations from DNI for an extremely well done and impressive brief to the Defense Science Board.

LT (b) (6) received a letter of commendation from COMNAVINTCOM for his contribution to Southeast Asia operations during his six-month TAD to FICPACFAC as an augmentee.

Mr. (b) (6) was chosen as the NFOIC outstanding civilian employee for 1971 and was thus made the recipient of the 1971 William G. Brown Memorial Award.

NAVAL ORDNANCE LABORATORY
WHITE OAK

SILVER SPRING, MARYLAND 20910

2 MAR 1972

IN REPLY REFER TO:

Captain Richard W. Bates
Officer-In-Charge
Navy Field Operational Intelligence Office
Ft. George G. Meade, Maryland 20755

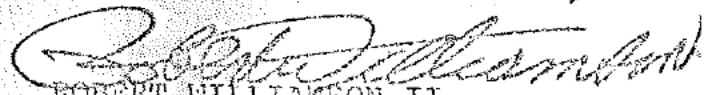

Dear Captain Bates:

We wish to thank you for the presentation given by
Mr. (b) (6) at our Laboratory on 20 April 1972.

His briefing on the "Arctic" provided timely information and
background that will assist our staff in its planning and
development.

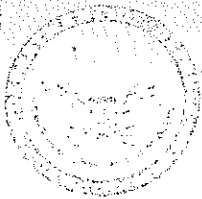

The assistance and excellent cooperation of CDR (b) (6)
and Mr. (b) (6) in arranging this briefing is gratefully
appreciated.

Sincerely yours,

ROBERT WILLIAMSON II

MEMORANDUM FOR THE DISTRIBUTION LIST

Subj: Letter of Appreciation

1. During the past few weeks, extraordinary requirements have been levied on many parts of the Naval Intelligence organization. Some activities have been tasked more than others, but each has been affected to some degree. I would like to take this opportunity to express my sincere appreciation to you for the efforts you and your organizations have made to the successful satisfaction of some difficult, and at times, seemingly unreasonable tasks. Your responses to these have been gratifying, to say the least.
2. I am taking this means to commend you as a whole, however, there are some individuals who deserve special recognition, and I will do this on a separate basis.

CAPT Richard W. LATES
Officer in Charge
Navy Field Operational Intelligence Office
Fort George G. Meade, Maryland 20753

Dear Dick;

(STICKSILL) (HNDER)
Your two most recent QUICKLOOK responses (1720342 AUG and 181208Z
AUG 72) which were received today are both most impressive. It is
quite apparent that your analysts are making a real effort to provide
the necessary feedback to the forces afloat in order to keep the
program dynamic.

I have conveyed my appreciation of your officers professionalism
to Captain HARVEY and expect that he shall initiate official CINCPACFLT
recognition in the near future.

I shall look forward to spending a few hours with you at your
command if I am able to break away from here and travel back to Washington
during the November conference.

Best regards to you and your fine officers.

Sincerely yours,

(b) (6)

Subj: Briefing and tour of the Suitland complex on 15 August 1972

1. It is a distinct pleasure for me to express my personal thanks and the appreciation of the course chairman and class members for the excellent presentation and tour provided by you and your staff. This field trip contributed significantly to our course objectives by providing these reserve intelligence officers with a unique opportunity to observe a naval information system in an operational environment. Your personal interest in and support of reserve intelligence programs added to this highlight of our course on Information Handling and Management.

Captain R. S. Bates, USN
Officer in Charge
U. S. Navy Field Operational Intelligence Office
Fort George G. Meade, Maryland 20755

29 September 1972

Dear Captain Bates,

As you know, Exercise STRONG EXPRESS was the largest NATO naval exercise ever held. The extensive Soviet reaction to this exercise was of great personal interest to Admiral DUNCAN, and throughout the exercise he and his staff were continually kept informed of developments.

To provide Admiral DUNCAN with the intelligence required in his capacity as Supreme Allied Commander, it was necessary to run a comparison of Soviet reaction to STRONG EXPRESS with that to previous NATO exercises. Because the information desired was not fully available here, it was necessary for me to call upon NFOIO for assistance.

The outstanding manner in which this assistance was provided, particularly in view of the time constraints imposed, is but one more example of the fine support your command provides to those of us working the Soviet Navy problem.

Please extend my personal appreciation to those analysts who responded to my query and especially to Lieutenant Commander (b) (6) for his assistance.

Warm regards,

(b) (6)

Commander, U. S. Navy

MEMORANDUM FOR THE DISTRIBUTION LIST

Subj: NAVINCOM Fleet Intelligence Newsletter 3-72

1. I have reviewed FIN 3-72 with pleasure. It is representative of an outstanding product that can be published only through the coordinated efforts of NAVINCOM Headquarters, the Field Activities, and OP-009 Staff Offices.
2. My sincere appreciation to all those who contributed to the publication of FIN 3-72 and especially to the Field Activities and offices whose wide range of articles were the principal source of material for this most interesting Newsletter. The continued success for publishing future Fleet Intelligence Newsletters is dependent upon you -- the contributors.

E. T. RECTANUS

Rear Admiral, U. S. Navy
Commander, Naval Intelligence Command

1. Issuance of this document is authorized.

2. All information contained herein is classified "Secret" or "Confidential" and is to be controlled and handled accordingly.

3. This document is to be controlled, handled, and stored in accordance with the instructions contained herein.

4. It is requested that continued close cooperation between SMS, PMO-403H, and NFOIO be maintained in the future for maximum benefit to the BAE ECCN Program.

Subject: NFI Threat

Re: Visit of Mr. (b) (6), NFOIO, to NAEWSTECOM on 30 October 1972.

1. Subject information received from NFOIO both by mailed documentation and verbally during the referenced visit has been of high value to the Surface Missile Systems (SMS) Program.

2. It is requested that continued close cooperation between SMS, PMO-403H, and NFOIO be maintained in the future for maximum benefit to the BAE ECCN Program.

COMNAVFORLANT 112715Z JAN 72 BOM RE. A NFOIO REPORT: "SUBJ REPORT ... IS THE KIND OF ANALYTICAL SUPPORT ... THAT OPERATIONAL COMMANDERS HAVE LONG AWAITED. IT DETAILS THE EVIDENCE SUPPORTING THE ANALYST'S CONCLUSIONS AS WELL AS THAT WHICH MIGHT SUPPORT OTHER POSSIBILITIES. OF GREATER SIGNIFICANCE, IT REFLECTS A CAREFUL INTEGRATION OF ALL POSSIBLE SOURCES WITHIN THE CLASSIFICATION OF THE REPORT ... AND PROVIDES A SUBSTANTIVE FOUNDATION FOR MEANINGFUL DIALOGUE BETWEEN THE INTELLIGENCE AND OPERATIONAL COMMUNITIES DEALING WITH THIS CRITICAL THREAT. ... WELL DONE."

CINCPACFLT 210256Z JAN 72 BOM RE. A NFOIO REPORT "THE RECENT SERIES OF... ALL-SOURCE REPORTS ... REPRESENTS A SIGNIFICANT CONTRIBUTION TO UNDERSTANDING THE ... PROBLEM. (THE REPORT) IS PARTICULARLY VALUABLE TO FOSIC AND FOSIF ANALYSTS ... CINCPACFLT WELCOMES PUBLICATION OF (THE REPORT) AND REQUESTS THAT FOSIF WESTPAC BE INCLUDED AS AN ADDRESSEE."

CINCPACFLT 280246Z APR 72 BOM SUBJ: MERSHIP SUPPORT (U) "THE CONTINUED TIMELY RESPONSE IN SUPPORT OF REQUIREMENTS ... GREATLY APPRECIATED."

CINCLANTFLT 021228Z AUG 72 BOM RE. SPECIAL INTELLIGENCE STUDY OF 10 APR 72. "(THE STUDY) HAS BEEN EXTENSIVELY REVIEWED AND IS CONSIDERED AN OUTSTANDING EXAMPLE OF COMPREHENSIVE, IN-DEPTH ANALYTIC EFFORT, WHICH CAN BE EMPLOYED AT FLEET LEVEL FOR VARIETY OF USES. NFOIO IS TO BE COMMENDED FOR THIS EXCELLENT ENDEAVOR."
